Dad, six years ago our Creator took you to our Spirit World, perhaps your work here was done.

But Dad your work lives on in us, through us with us, we remember how you have taught us.

All your teachings and ever so loving ways of showing us how to be just good people to others. We remember your smiling eyes, your tender voice, your gentle laugh, we will always remember you.

Our hearts ache, that you're not physically here with us but our hearts soar with joy because we still feel you with us. At times it's as if you never left us.

We love you Dad. We miss you very much. We will always think of you and during times of loneliness we still cry for you.

Dad, it is because we love you so much and always will you were the best husband and grandpa and the world's greatest Dad.

With all our love for you from your wife Caroline Andre, your children, grandchildren and great-grandchildren.
